Jayride launches Canada

Jayride Group Limited (ASX:JAY) ("**Jayride**" or the "**Company**") the e-commerce marketplace that allows travellers to compare and book airport transfers from 2,000+ transport companies, is pleased to announce the launch of Jayride in Canada.

Jayride is now available for travellers to compare and book airport transfers at every Canadian airport with greater than 25,000 international passenger per year.

At these top 15 airports in Canada, travellers can now choose the best transfer for them from over 90 private transfer and shared shuttle companies.

For Jayride, today's launch of Canada is the first new country released on the Jayride platform since 2015 and is part of Jayride's international market capture strategy. These Canadian airports service 2%¹ of the world's 7.7 billion total airport passenger trips, which increases Jayride's market access from 27% to 29% of total airport passenger trips.

Transport companies in Canada now available to book on Jayride include great local private car and shared shuttle services, and even popular international transport brands.

They service popular routes; like downtown Halifax, and from Calgary Airport to Banff.

These transport services are now available to be booked by Jayride users.

"The response to our Canadian launch from transport companies has been fantastic," said Rod Bishop, Managing Director at Jayride, "with strong demand potential from international travellers, they have immediately recognised the value of being listed on a major international travel platform. There's a lot of excitement."

Looking forward, Jayride intends to use its new transport technology platform to launch further new countries as part of the Company's international expansion strategy.
