

ASX Announcement

12th November 2018

Jayride launches transport booking service for Insurance and Medical-Assist Travellers

Jayride Group Limited (ASX:JAY) ("**Jayride**" or the "**Company**") the e-commerce marketplace that provides seamless transport experiences for travellers, to compare and book transport services from 3,000+ transport companies, is pleased to announce the launch of its global transport booking service for Insurance and Medical-Assist Travellers.

Jayride's new booking service for Insurance and Medical-Assist Travellers is the Company's first new business vertical outside of airport transportation.

The booking service is now being used by Travel Management Companies (TMCs), healthcare providers, travel and workers compensation insurance companies in Australia and New Zealand to book ground transport services for their clients.

During the pilot phase which is now completed, in excess of 7,500 passenger trips were booked successfully using the Jayride platform, with safe, professional, and reliable ground transport services provided by local transport companies, to-and-from medical appointments, hospitals, and back-to-work rehabilitation centres.

Insurance and Medical-Assist Traveller trips have unique characteristics, including long-distance travel for visits to specialist providers, long wait-times, or special vehicle requirements; and the travellers themselves may be unable to drive, have impaired mobility, or be injured and require driver assistance.

"Jayride provides a customer-centric model that allows our partners to tailor transport booking workflows to the needs of their individual business units, be they travel insurance, workers compensation, back-to-work rehabilitation programs, or much more," said Rod Bishop, Managing Director of Jayride.

"Now that the pilot has been successful, Jayride looks forward to offering our booking service to industry leading insurers and healthcare providers internationally."

About Jayride Group Limited

Jayride.com provides seamless transport experiences for travellers by allowing them to compare and book ground transfers around the world. With Jayride.com, travellers can compare and book with 3,000+ transport companies, servicing local destinations including over 500+ airports across North America, Europe and the Pacific.

The Jayride.com platform aggregates ground transport companies and distributes them to travellers at Jayride.com; and via partnerships with other travel technology platforms, travel agencies and wholesalers. These partners implement Jayride.com APIs to sell ground transport and add new incremental ancillary revenue to their travel businesses.

Founded in 2012, Jayride.com is headquartered in Sydney, Australia.

Forward-looking statements

This announcement contains forward-looking statements that involve risks and uncertainties. Indications of, and guidelines or outlook on, future earnings, distributions or financial position or performance and targets, estimates and assumptions in respect of production, prices, operating costs, results, capital expenditures, reserves and resources are also forward-looking statements. These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions and estimates regarding future events and actions that, while considered reasonable as at the date of this announcement and are expected to take place, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the directors and management. We cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur and readers are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements are subject to various risk factors that could cause actual events or results to differ materially from the events or results estimated, expressed or anticipated in these statements.
